

NASO-FLO[®] Sizing Chart

Below are some recommendations on how to properly size the Naso-Flo:

- » Before removing the tube from the bag, check the tip of the NPA. Verify the diameter of the tube is not larger than the nare of the patient.
- » Line up the tip of the Naso-Flo with the bottom of the patients ear lobe, and the top of the Naso-Flo with the bottom of their nose.
- » Always follow your local protocols.
