

# Cric Mannequin

## Cricothyrotomy Training Mannequin Kit

The airway management Mannequin is to be used for training purposes only. The Hyoid, Thyroid, and Cricoid cartilages are based off the male anatomy. Pulmodyne recommends the Control-Cric® Trainer to be used in conjunction with the mannequin to practice a surgical cricothyrotomy procedure. Follow the instructions from your Control-Cric training kit.

*Stability and control*

*Easily store and transport*

*Realistic skins*
